### REPORT

RELATING TO THE REGISTRATION OF

# BIRTHS, MARRIAGES AND DEATHS

IN THE

## PROVINCE OF ONTARIO

FOR THE

YEAR ENDING 31st DECEMBER

1934

(BEING THE SIXTY-FIFTH ANNUAL REPORT)

PRINTED BY ORDER OF
THE LEGISLATIVE ASSEMBLY OF ONTARIO
SESSIONAL PAPER No. 13, 1935

TORONTO

Printed and Published by T. E. Bowman, Printer to the King's Most Excellent Majesty

1936

To His Honour the Lieutenant-Governor of the Province of Ontario.

#### MAY IT PLEASE YOUR HONOUR:

I herewith beg to present for your consideration the Sixty-Fifth Annual Report of the Registrar-General, relating to the Registration of Births, Marriages and Deaths in the Province of Ontario during the year 1934.

Respectfully submitted,

H. C. NIXON,
Registrar-General of Ontario.

SIR:

I have the honour to submit for your approval the Sixty-Fifth Annual Report made in conformity with and under the provisions of the Act respecting the Registration of Births, Marriages and Deaths in the Province of Ontario, for the year ending December 31st, 1934.

I have the honour to be, Sir,
Your obedient servant,

F. V. JOHNS,

Deputy Registrar-General.

To the Hon. H. C. Nixon,

Registrar-General of Ontario.

30–34	133,635	128,077	261,712
35–39	130,549	125,631	256,180
40-44	122.560	114,797	237,357
45–49.	112,210	101,868	214,078
50–54	94,961	89,462	184,423
55–59.	72,991	69,368	142,359
	59,918	59,408	119,326
65 60	47,934	48,225	96,159
65–69	36,677	37,567	74,244
70–74			
75–79	20,517	21,142	41,659
80–84	9,623	10,833	20,456
85–89	3,450	4,543	7,993
90 and over	1,089	1,398	2,487
Not stated	547	350	897

The population is distributed as follows:-

City municipalities, 1,570,000; Towns (over 5,000 population), 186,358; Rural (including all other) municipalities, 1,806,419.

#### BIRTHS

The number of living births registered was 62,234, being again a numerical decrease, on this occasion of 1,412. This, however, is less than 45% of the numerical decrease of a year ago, and it is hoped that the smaller decrease indicates a turn to an upward trend.

The rate per 1.000 of population was 17.5, which again constitutes the lowest rate since 1875. In all probability, however, it is a low record in the history of registration in the Province, for, it is a recognized fact that, registration in the early years was notoriously bad.

There were 31,850 boys, or 51.2% of the total number; and 30,384 girls, or 48.8% which represents 104.8 male to 100 female births.

#### NUMBER OF BIRTHS AND RATE PER 1,000 OF POPULATION

	1934		193	3

<sup>40.2%</sup> of living births were of mothers under 25 years of age and 59.8% of mothers 25 years and over.

#### ILLEGITIMATE BIRTHS

#### Rate per 1,000 living Births

190410.8	191221.3	192020.5	192831.7
1905	191321.6	192121.5	192934.6
190610.4	191422.1	192221.2	193037.2
190714.8	191521.9	192322.5	193140.0
190814.9	191620.9	192424.0	193242.3
190913.9	191719.5	192526.8	1933 43.8
191019.3	191821.0	192626.9	193440.2
191119.4	191919.8	192729.0	

There were 2,500 illegitimate births registered, being 40.2 per 1,000 living births. The rate of illegitimacy has fallen to 40.2 which is the first appreciable decline since 1919. True there was a slight decline in 1922 of 0.3 of no significance in the general trend.

#### ILLEGITIMATE BIRTHS

#### By Ages of Mothers

Year	12	13	14	15	16	17	18	19	20	21	22	23	24	25	12-25	Over 25	Total	Rate
1925 1926 1927 1928 1929 1930 1931 1932 1933		5	10 17	49 55 56 60 72 71 53 52	106 119 125 146 152 124 144	190 197 193 198 235 212 209	229 233 256 249 292 310 314	183 200 233 268 294 313 320 331	185 181 194 216 227 293 233 286 268 251	161 167 173 202 200 229 257 256	122 147 157 164 207 202 172 200	85 89 106 136 138 143 171 165 144 139	75 75 86 114 145 137 151 128	73 83 97 90 103	1424 1547 1699 1860 2076 2154 2166 2164	399 411 471 516 575 619 668	1823 1958 2170 2376 2651 2773 2834 2786	29.0 31.7 34.6 37.2 40.0 42.5

In the case of illegitimate births 75.5% of the mothers were under 25 years and of the total 2,500 such births, 1,272 or 50.9% were boys and 1,228 or 49.1% girls.

#### MULTIPLE BIRTHS

There were 682 cases of twin births. Of these 696 were males and 668 females.

There were 6 cases of triplets, 6 boys and 12 girls.

1 case quintuplets—5 girls.

Table 15 will give a detailed explanation of the multiple births.

#### QUINTUPLETS

The most famous case of multiple birth in the written history of the world took place in the Township of East Ferris, in the District of Nipissing, about 212 miles north of the City of Toronto. Here, on May 28th, 1934, were born five female children to one Oliva Dionne, a farmer, age 30, and his wife Elzire Legros, age 25. This couple were already the parents of five children. The total weight of the children was 13 pounds, 6 ounces.

These children were later named Annette, Cecile, Yvonne, Emelie and Marie.

The mother was attended by Dr. Allan Roy Dafoe, a physician residing at Callander, about two miles distant. When he arrived at the home at 4.00 a.m. one of the children had already been born.

The home was typical of that part of the Province, a frame building heated with wood stoves, and furnished as might be expected, not at all luxuriantly, and it is a tribute to the general practitioner that in such circumstances, assisted by two women only, without any provision for such a contingency, these children were all born alive and are living at this date.

It is stated that in about 500 years some 30 cases of quintuplet births have taken place, none of which lived beyond an hour.

These children have been taken into the paternal care of this Government which has spared no effort to make it possible for them to survive and Dr. Dafoe states that there is no reason why they should not reach maturity.

CONFINEMENTS	
Multiple births	689
Single living births	60.940
Single still births	
Single bein bitches	
	63,627

Other tables dealing with births will be found from Table No. 1 to Table No. 15.

#### MARRIAGES

#### NUMBER AND RATE PER 1,000 OF POPULATION

	1934	1933		
	Number	Ratio	Number	Ratio
Province	25,874	7.3	22,587	6.4
Cities		9.5	13,084	8.4
Towns	1,626	8.7	1,421	7.8
Rural	9,300	5.1	8,082	4.5

#### NUMBER AND RATIO PER 1000 POPULATION FOR 10 YEARS

Year	Marriages	Ratio	Year	Marriages	Ratio
1925 1926	. 23,632	7.4 7.4 7.6	1930 1931 1932	. 23,771	7.6 6.9 6.4
1927 1928	. 25,728	7.8 8.3	1932. 1933. 1934.	. 22,587	6.4

The tables dealing with marriages from various angles are numbered 16 to 22.

#### DIVORCES

There were 365 Decrees of Absolute Divorce granted by the Courts of Ontario in 1934. This was an increase of 57 over the preceding year.

The reason for the small number granted in 1931 is that the Divorce laws became effective for the first time in the Province, and as six months must

elapse between the decrees nisi and absolute, all decrees nisi granted after July 1st, would not be effective until after January 1st of the following year.

The following Table shows the Decrees Absolute granted by the Provincial Courts since the institution of the law:

DIVORCES-YEARS AT MARRIED LIFE

Years Married	1931	1932	1933	1934	Years Married	1931	1932	1933	1934
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	1 1 2 3 3 5 4 4 7 10 4 9 8 5 3 4 4 4 4	10 9 14 17 17 19 19 22 20 21 22 17 12 14 16 16 30	7 8 14 17 22 17 23 16 16 14 21 20 12 12 10 13	3 7 9 13 16 23 21 28 23 34 19 16 12 221 16 14 13	19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 41  Total	1 4 1  2  1 1   1 	77 76 67 4 22 55 55 22 33 21 11 11 	10 13 10 2 1 5 1 3 6 3 1 	11 5 11 7 4 4 4 4 5 1 1 1 1 3 

Of these divorces 105 were granted to men and 260 to women.

# AGES OF DIVORCEES FOR THE PROVINCE OF ONTARIO—1934 AGES OF WOMEN

Total Number of Divorces.  Number Married in Ontario.  Number Married outside Ontario.	365 302 63
	365

#### **DEATHS**

	19	34	19	33
	Number	Ratio	Number	Ratio
Province. Cities. Towns. Rural.	16,953 2,405	9.9 10.7 12.9 8.7	35,301 16,823 2,368 16,110	10.0 10.9 12.5 8.9

#### DEATHS AND RATE PER 1,000 OF POPULATION FOR 10 YEARS

Year	Deaths	Ratio	Year	Deaths	Ratio
1925	35,909 34,775 37,128	10.8 11.3 10.7 11.3 11.4	1930	35,705 36,469 35,301	11.0 10 4 10.5 10.0 9.9

There was a numerical decrease of 182 deaths and a decrease of 0.1 in the rate. This is the lowest death rate since 1879 when the death rate was 9.6, but again we may reasonably assume that there was carelessness in respect to registration, if not as great as in the case of births, sufficiently great, nevertheless, to say that 9.9 is an all-time low record. It is exceeded as a low rate only in New Zealand (7.3), Australia (8.8), the Netherlands (9.0) and South Africa (8.6).

#### TEN HIGHEST CAUSES OF DEATH IN EACH YEAR PER 100,000 OF POPULATION

6. Malformations 7. Congenital weakness 8. All others	34.8	37.0	35.7	33.9	35.9	33.7	32.8	30.6	28.5	26.9	

#### Of these infant deaths:

756 or 21.45 per cent. lived less than one day.
756 or 21.45 per cent. lived less than one week.
441 or 12.52 per cent. lived less than one month.
533 or 15.13 per cent. lived less than three months.
499 or 14.17 per cent. lived less than six months.
340 or 9.65 per cent. lived less than nine months.
198 or 5.62 per cent. lived less than one year.

#### MATERNAL MORTALITY

During the year 1934 there were 348 deaths registered, being a rate of 5.59 per 1,000 living births and is the same rate as obtained in 1931. When still-births are included the rate is reduced to 5.41.

The following "Special Classes of Accidental Deaths" is supplemental to the foregoing Table and includes the first item in the foregoing, that is "Deaths from Automobiles" and the last item, that is "Other Accidents," and shows the manner in which these deaths occurred.

There has been an increase of 185 deaths from external causes, the majority of which (112) are attributed to automobiles.

#### SUICIDES

In 1934 there were 360 suicides. The rate per 100,000 of population was 10.1, just 0.02 less than for 1933.

Of these, 267 or 74.93 were males and 93 or 26.10 females.

	Total		Und	er 20	20-	-39	40-	.59	60 and over			
	No.	%	No.	%	No.	%	No.	%	No.	%		
Males	267	100	7	2.62	81	30.33	116	43.44	63	23.59		
Females	93	100	4	4.30	31	33.33	40	43.01	18	19.35		
Total	360	360 100		11 4.05		31.11	156 43.33		81	22.49		

Method of suicide over a ten-year period is shown in the following table:
